Reasons For Allowance

Claims 1-15 have been allowed.

The following is an examiner's statement of reasons for allowance:

Independent claim 1 recites the structural limitation of a conveyor device for advancing work pieces through a processing zone for the surface treatment of the work pieces comprising mounting devices each having a respective base part which is moved in a translatory manner in a direction of conveyance and a rotary upon which the work piece is arranged and which is mounted in a rotatable manner on the base part, at least one drive device by means of which at least one respective directly driven mounting device is adapted to be driven directly for movement in the direction of conveyance and by virtue of contact between the directly driven mounting device and at least one indirectly driven mounting device, the movement of the directly driven mounting device is transmitted to the indirectly driven mounting device in the direction of conveyance, in combination with the rest of the recited structure, clearly defines over the prior art.

The claimed mounting device structure in combination with the claimed drive system in Independent claim 1 provides for a conveyor system that has much lower maintenance issues and allows for a considerable increased efficiency of use of the conveyor system, in case one of the drive systems fails.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rashmi K. Sharma whose telephone number is 571-272-6918. The examiner can normally be reached on Monday-Thursday.
